

COVID-19 Guidelines and Measures

COVID-19 restrictions have now ended, although please note the following:

- Wearing a face covering is now a matter of personal choice - please respect audience members who wish to do so
- Socially distanced seating is not in place for screenings
- Please do not attend any screening if you have, or suspect you may have, COVID-19 or are experiencing any new symptoms of illness
- The Exchange's air handling system is fed by filtered fresh air. Used air is extracted to the outside and is not recirculated. Filters are changed as part of regular, routine maintenance.
- The Exchange is a COVID secure venue, which follows the safety and hygiene measures for businesses set out by the government in its performing arts guidance. As such, it continues to operate an enhanced cleaning regime, which includes additional high touch point cleaning at the venue. Hand sanitiser is also provided throughout The Exchange
- The venue will remain cashless and all payments for Box Office and Bar will be card/contactless only.

Both the Committee and The Exchange will keep the position under review in the light of the pandemic's development and any revised rules or guidance that are introduced as Season 59 progresses.
